

C.O.P.S. HARD DRIVE DESTRUCTION

CONSIDER ALL THE CONFIDENTIAL INFORMATION ON YOUR COMPUTERS...

Patient Records | Credit Reports | Tax Filings | Pricing Documents
Loan Applications | Blueprints | Customer Lists | Account Information | Dead Deal Files | Audit Packs
Employment Records | Bank Statements | And more!

So when you expunge data from a hard drive is it really erased?

NO!! Today's technology savvy thieves know how to retrieve it!

Ensure your company is compliant with applicable state and federal regulations relative to confidential document destruction. Have your hard drive destroyed with C.O.P.S. hard drive destruction service and witness the demolition right before your eyes! C.O.P.S. will provide you with a certificate of destruction from the National Association for Information Destruction (NAID).

WHY C.O.P.S.?

- C.O.P.S. is certified by the NAID, so our staff is educated in compliance policies across many industries.
- C.O.P.S. Security Consultants are available to answer your questions about hard drive destruction and guarantee the information is irretrievable!
- C.O.P.S. will destroy your hard drive on-site, so you can be witness that the information is properly destroyed on-the-spot.
- C.O.P.S. is a division of Midwest Fiber Recycling, so destroyed hard drives are then recycled for the materials—NOT the information!

Don't let your company be subject to possible lawsuits and fines imposed for non-compliance; talk with a C.O.P.S. Security Consultant today!

CALL: 1-866-4-A-SHRED.
