

# CONFIDENTIAL ON-SITE PAPER SHREDDING

Your Shredding, Compliance and Recycling Force

## Division of Midwest Fiber

---

- Being a division of Midwest Fiber Recycling, C.O.P.S. recycles 100% of our shredded paper.
- This keeps material out of landfills, and gives it new product life as a raw material for manufacturers.
- By recycling at our own location, C.O.P.S. is able to retain a vertically integrated system, which lowers costs in the downstream process.
- Eliminating the need to outsource recycling services also increases security by not transporting the shredded paper to a 3<sup>rd</sup> party consortium.
